## WORK EXPERIENCE

---

### March 2022 - Present

Working as a Full Stack Developer at Prima.Law, an app for immigration lawyers in the United States, using technologies such as Vue, TypeScript, NodeJS, and PHP, participating in the development of various sections of the application:

- Reports and Analytics: tool for visualization and analysis of performance in cases.
- Smart Interviews: section of the app for creating and managing interviews, to make it easier for clients.
- Case Management Board: case management table with a high level of customization, filtering and creation of views per user.
- Lead Team: lead a front team for the migration of the Laravel 5 app to VueJS.
